CAREER OBJECTIVE

Motivated and detail-oriented aspiring Python Developer with knowledge of Python programming, Django, Django REST Framework, and web development. Familiar with Object-Oriented Programming, database management, and REST API development. Experienced in developing academic projects involving web applications and AI-assisted features. Seeking an entry-level Python Developer opportunity to apply technical knowledge, enhance development skills, and contribute to real-world software solutions.

TECHNICAL SKILLS

- **Programming Language:** Python
- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Django, Django REST Framework
- **Database:** MySQL
- **Core Concepts:** Object-Oriented Programming (OOP)
- **Tools:** Git, GitHub, VS Code

PROJECTS

NeuroRead — Inclusive Digital Library & AI Reading Assistant

Technologies: Python, Django, Django REST Framework, SQLite3, HTML, CSS, JavaScript, PDF.js, Hugging Face Inference API

- Developed a web-based digital reading platform to improve document accessibility and comprehension.
- Implemented backend functionality using Django and Django REST Framework, with SQLite3 for data storage.
- Worked on AI-assisted text simplification and translation features using Hugging Face Inference API.
- Incorporated accessibility features, including customizable typography, text-to-speech controls, and reading-progress support.

CampusFlow — AI-Powered College Management Platform

Technologies: Python, FastAPI, Next.js, TypeScript, PostgreSQL, AWS S3, AWS SQS, Hugging Face, Docker

- Developed a college management platform with role-based portals for students and faculty to access academic resources.
- Implemented backend APIs using Python and FastAPI for application functionality and resource management.
- Integrated AI-assisted document-based question answering using Retrieval-Augmented Generation (RAG).
- Incorporated AWS S3 for cloud storage and AWS SQS for asynchronous document processing.

CERTIFICATIONS

Python Full Stack Development – TAP Academy (2026)

Coursework: Python Programming, Django and Django REST Framework, MySQL, HTML, CSS, JavaScript, Object-Oriented Programming, Data Structures, Exception Handling, Database Management, REST API Development, Frontend Development

EDUCATION

Bachelor of Computer Applications (BCA)
Canara College, Mangalore
CGPA: 6.38
